

Elgin Equipment Group...

Quality Products and Performance Excellence You Can Rely On

Elgin Equipment Group

Rotary Breakers

Rectifiers

Camera Monitoring Systems

HVC-1400 Centrifuge

Familiar Brands

Elgin Equipment Group products are known for their design and performance excellence. Our companies- CMI, Tabor, Mining Controls, Norris, CSI and Clinch River- are widely recognized throughout the mining, minerals and energy industries for manufacturing products known for their reliability, low maintenance and cost-effectiveness.

24 x 7 Service

Elgin Equipment Group product and service expertise has developed over decades of serving the specialized needs of coal processing, underground mining, oil & gas exploration and electric utilities. We responded to the demands of these industries with intensive R&D and total customer service.

Products & Services

The Elgin Equipment Group products and services:

- High capacity centrifuges
- Rebuilt centrifuges
- Mine electrical products
- Mine lighting systems
- HV, LV electrical apparatus
- Vibrating screens & feeders
- Rotary breakers
- Stainless profile wire screens, urethane screens
- Specialized custom fabrication
- Hydro intake screens
- Engineering studies
- System analysis
- Parts and repair
- 24 x 7 emergency services

Look to the Elgin Equipment Group to meet your toughest processing needs!

Products and Services

Since 1938, Centrifugal & Mechanical Industries (CMI) centrifuges have been the industry standard in coal dewatering. CMI offers three high-efficiency style dryers for the coal market in a wide range of sizes: Model VC vertical vibratory centrifuges; Models EBR and EBW vertical screen-scroll centrifuges; and Model HVC, a new horizontal vibratory centrifuge.

Phone: 314-776-2848 • Fax: 314-776-2918
Email: info@cmi-centrifuges.com

Tabor Machine (Tabor) manufactures vibrating screens, feeders, de-watering and sizing equipment for the coal, aggregate, chemical, mineral, sand, gravel, and earth-extracted products. Using the latest technology and techniques since 1961, Tabor has provided service and parts to mining, chemical and industrial screening and separating facilities worldwide, with the highest quality manufacturing, materials and craftsmanship.

1176 Shelter Road • Princeton, West Virginia 24740
Phone: 304-431-4100 • Fax: 304-325-2348
Email: info@tabormachine.com

Mining Controls Inc. (MCI) is a leading manufacturer of underground mining power distribution equipment including substations, power centers, transformers, MSHA-approved explosion proof controls, enclosures and explosion-proof lighting. We also manufacture capacitor and harmonic filter banks to optimize use of your electrical sources. MCI is a turn key provider from engineering through product completion.

214 Industrial Park Road (street) • Beaver, WV 25813
Phone: 304-252-6243 • Fax: 304-252-9257 (MCI)
Email: info@miningcontrols.com

Norris Screen & Manufacturing (Norris) has built high quality screens of all types for over thirty years including screening surfaces for stationary and vibrating screens, sieve bends, and environmental applications. Using the latest designs and long lasting materials, Norris can build the screen with the shape, configuration, and slot aperture size you need. Our engineers are on call 24 x 7 for application assistance.

21405 Gov. G.C. Peery Hwy. • Tazewell, VA 24651
Phone: 276-988-8901 • Fax: 276-988-8909
Email: info@norrisscreen.com

Since 1989, Centrifugal Services, Inc. (CSI) has manufactured new and rebuilt cuttings dryers, replacement parts and components used in oil/gas exploration and coal processing. CSI provides TRUE VALUE through lower initial cost, reduced operating costs, maintaining compliance with strict environmental standards and by utilizing our extensive customer service program.
